MCK approves funding and partnership for new KYC Multi-Generational Recreation Facility

For Immediate Release

(Kahnawake – 24 Kentenhkó:wa/November 2026) The Mohawk Council of Kahnawà:ke (MCK) wishes to inform the community that during the duly-convened Council meeting on November 23, it has approved $300k in funding for the development of the Kahnawà:ke Youth Center's (KYC) new multi-generational community recreation facility, which will serve current and future generations of Kahnawa'kehró:non.

In addition to this financial support, the MCK will also participate as an official project partner as planning progresses toward the development of a modern, accessible, and inclusive recreation facility for all ages. This initiative was identified as a key project that was supported from the existing partnership between the Sports and Recreation Unit and the KYC through the Recreation Master Plan and Feasibility Study.

"With the use of this funding, the Mohawk Council of Kahnawà:ke is investing resources into our youth, while also supplementing recreation needs," said Sports and Recreation Portfolio Lead Ratsénhaienhs Ryan Montour. "We aim to improve the overall quality of life, fulfilling our political priority."

The funding will go towards their Strategic Validation and Business Plan, as well as undertake the necessary planning work required to assess the project's feasibility and long-term sustainability.

The proposed facility would contribute to objectives identified in the Onkwata'karitáhtshera Kahnawà:ke Community Wellness Plan, while also supporting and aligning with MCK's 2024-2027 Political Priorities, which emphasize improving the health, safety, and overall quality of life of community members.
