New Status Cards

There will be new secure Status Cards to replace the existing Indian Status cards. These new cards will be available in the new year. A Mohawk Council Executive Decision (MCED) was required to proceed in Kahnawà:ke. This MCED was passed. The old cards will still be valid for a period of time, but eventually (after expiration date has passed), will no longer be valid. Members of the Membership Office will require special training with the new secure cards and will work together with the local Indian Affairs office (across from the Hospital) on the transition. Announcements on how to obtain cards will be made sometime in the new year.
