Community urged to limit water usage

(Kahnawake – 5, Ohiarí:ha/June 2020)

Until further notice the community is being urged to limit water usage to only essential usage. The Filtration Plant is experiencing a possible programming problem with some valves that may affect the system. Technicians have been called to address the issue.

The water supply remains safe but it is important to use only what is needed at this time.

The community's cooperation and understanding is very much appreciated.
