

# The Kahnawà:ke COVID-19 Task Force

---

June 18<sup>th</sup>, 2020

## **Outdoor Sports & Recreation Facilities**

The Kahnawà:ke COVID-19 task force is advising the community that Outdoor Sports and Recreation facilities in the community have been approved to re-open. This directive rescinds and replaces directive #15, dated March 20, 2020.

The Task Force has advised MCK Sports and Recreation Unit to start the process to re-open these facilities. This includes ensuring the proper safety measure and signage is in place. This gradual re-opening of outdoor recreation facilities will start the week of June 22<sup>nd</sup>. Official opening dates of each park will be forthcoming from the Sports and Recreation Unit.

We are in support of empowering the community with respective prevention measures while enjoying activities that improve our physical and mental wellness. Working as a community, we can limit and manage the spread of the virus.

Thank you,

Robyn Montour  
General Manager Public Safety Operations
