Communications Protocol,  
all media requests must be  
arranged through the Public  
Relations / Communications  
Unit*

## **Pet Micro-chipping & Vaccination clinics this September**

**(Kahnawà:ke – 1, Seskehkó:wa/September 2017)** The Animal Protection Department of the Mohawk Council of Kahnawà:ke is pleased to announce a Micro-Chipping Clinic scheduled on **Saturday, September 23<sup>rd</sup> from 9am to noon**, and a Vaccination Clinic on **Sunday, September 24<sup>th</sup> from 9am to 1pm**.

Both Clinics will take place at the new Animal Protection building between the Peacekeeper Station and K103 Radio Station.

A veterinary technician will be on-site to perform the service at a cost of \$40. Appointments are preferred. However, walk-ins are welcome. Each appointment will require a \$20 deposit to be paid in-person at Public Safety or Animal Protection.

Pet owner's contact information is stored on a micro-chip, which is the size of a grain of rice, which is then inserted under the skin between the pet's shoulder blades. Please note, the micro-chip is not a GPS for your pet.

It is standard procedure of veterinarians and animal protection officers to check for these micro-chips. Pets that are micro-chipped generally have a higher return rate than those that are not.

For further information or questions, please contact Deidra Whyte at the Animal Protection Department by telephone at (450) 632-0635.
