### LAND USE SURVEY RESULTS 2016 - SYNOPSIS

The following is a synopsis from the MCK Public Relations Unit, regarding the Land Use survey results.

Overall, the survey results show very mixed feelings regarding land issues. Based on the results, no one issue is deemed unimportant and it seems as though all land issues are important.

When asked to prioritize, the only issue that stood out was future housing development. 200 survey participants had 11 choices to select 5 items to prioritize. Every single item was chosen by over 100 people, again citing that all issues are important.

Other aspects of the survey show that this is common – that all land issues are important.

There is no doubt Community members want to and need to be involved. The Land Use Planning Project has a Kahnawà:ke Land Use Plan Framework Steering Committee in place to provide insight and guidance to the project coordinator, as needed. Also, focus groups are currently being held in Kahnawà:ke with the aim that the participants will represent a broad cross-section of the community.

However, the survey participants agreed that the biggest hurdle will be Community participation and agreement.

Of note, over 75% felt that the Community Vision of the future of land use should be a main focus. Of special note, over 75% of those who took the survey were women, which demonstrates that, as caretakers of the land, women had more interest in this survey.

Based on the survey results, MCK Public Relations recommended the following to MCK Lands:

- Create 10 themes
- Run a 30 week educational campaign
- Hold special meetings on key issues
- Use surveys, focus groups, meetings or workshops to get proper feedback per theme, rather than all at once and not using the same method for all 10
- Hold a Lands Conference after 30 weeks, with workshops to validate the results of the feedback
- Possibly hold one final Community survey to validate the results of the workshop and/or at least see which areas the Community does agree on.

## **SURVEY RESULTS SYNOPSIS FROM THE LANDS UNIT**

Last year the MCK Lands Unit did surveys to gather community feedback on Land Use Planning. The surveys were done from February to early April of 2016. In total, 202 surveys were completed. They were done in-person and over the phone. We didn't record the identities of the participants.

The first question was, "in which of the following areas should there be a Land Use Plan?" The top 2 responses were residential development and preservation of our lands.

The survey also asked "Who should be involved in the development of a Land Use Plan?" and the #1 response was community members. so This aligns with the main goal of the project which was to have the framework development be based entirely on community feedback.

We asked what people's biggest land related concerns were, and the top ranked answer was a "Lack of Land", next was "the contaminated dumpsites on the territory". After that, it was a three way tie between Deforestation, the Amount of land owned by Individuals, and commercial ventures in residential areas.

Most of the participants felt the biggest obstacle to achieving a land use plan is community agreement. The survey also had a few questions about Land Use up in Tioweró:ton. People felt general preservation of the area, the cabin site areas and the hunting areas all need to be included in a Tioweró:ton land use plan

The most important land related issues in Tioweró:ton were disrespect to the land, lack of respect in general and disturbing the ecosystems.

The survey had some demographic questions and 3 out of 4 survey participants were women.

The survey results will be on the MCK Lands Unit webpage if anyone wants to give them a more in-depth look.

In October we finished another survey for land use in Tioweró:ton, survey participants for that one were from Kahnawà:ke and Kanesatake. we'll be releasing those results to the public in the near future.

1	It would be easy to dev a land use plan for unoccupied lands but it is too huge to develop such a plan for the community. It would be a huge challenge. How can we develop a plan for an area that already exists. Town garage is already in an industrial area.	4/4/2016 11:45 AM
2	Residential can include agricultural. If you want to build a garden (farm), do not have a pig farm right next to a residence. We need to preserve our land, especially our wetlands.	4/1/2016 11:01 AM
3	To maintain it's natural state.	4/1/2016 10:25 AM
4	Everything but leases and permits. I don't know how that will make up a land use plan. We need future development on commercial areas. We also need food security along with recreation and leisure that helps life balance out. We really need to preserve what land we have left.	3/31/2016 10:39 AM
5	There should have been more definition as to what territory for particular questions. Not the same answers for both territories.	3/30/2016 9:35 AM
6	No one plants any more.	3/29/2016 11:14 AM
7	An area should be set aside for more community gardens and also a dog park.	3/29/2016 10:57 AM
8	For proper use where should we situate buildings.	3/29/2016 9:55 AM

10	we have no rules so anyone can build anything without consulting anyone. The super rich are taking advantage of no rules by buying and building anything they want. It's like the wild west!	3/29/2016 9:44 AM
11	They all raise concern and they all tie into each other. We have gas stations that are very close to a residential area then what if that gas station explodes that will take out a whole area. It could be very hazardous. We have a lot of areas where this land use plan can apply to.	3/29/2016 9:38 AM

20	Do not want a cig factory right new to my home	3/23/2016 11:30 AM
21	Difficult to answer question as it very vague. I believe ALL areas should be looked into however do not want Kahnawake to be another Chateauguay.	3/23/2016 11:15 AM
22	With whatever we have now definately need more land. More land would expand everything. Residential and commercial development should be separate from everything else.	3/23/2016 10:58 AM
23	Survey needs to be more specific re: term of land use	3/23/2016 10:05 AM
24	Those are the ones that can really destroy the land if we don't take care of them. Regarding health issues and habitat destruction. We need to protect our lands.	3/21/2016 3:40 PM
25	Use other municipalities as a model	3/21/2016 3:02 PM

29	Get land back from tunnel to KSS, waterfront property. Why is not ours yet? Need planting grounds like what they did on 207. Non-natives should not own "anything" in kahnowake	3/17/2016 3:09 PM
30	Shorter leases (max of 10 years) or less to negotiation period.	3/17/2016 3:03 PM
31	With whatever land we do have, green spaces should remain untouched. Residential should stay residential with no industrial development in those areas, should only be built in the outlying areas	3/17/2016 2:43 PM

45	We have to preserve what is left.	3/7/2016 1:14 PM
46	I use to walk in the new development areas and i would see wildlife in the bushes and now that the area is covered in houses and turned into a residential area i don't see much animals any more.	3/7/2016 11:38 AM
47	We don't have a big land foot print as we would like so i think that zoning would be appropriate. We need some sort of law that would allow us to identify some sort of areas so we could make plans for them.	3/7/2016 9:29 AM
48	Perhaps, job wise, people from town would benefit by returning to a job ex: recreation or industrial or housing	3/7/2016 9:06 AM

## Land Use Planning Survey 2016

97	Agriculture is a big one for me. Humans are great at building at the destruction of everything else. Also if we could have land for families it would create space to learn about growing our own food and create jobs in tough economic and environmental times, being able to produce food is an asset to Kahnawake.	2/26/2016 1:44 PM
98	Concerns with factories being built in residential areas, protection of land	2/26/2016 1:33 PM
99	Sometimes our community suffers because there's no rules and regulations for certain things.	2/25/2016 3:37 PM
100	Cultural land uses - 3 sisters garden has a lot to do with us harvest and ceremonies. Agriculture has a lot of onkwehonwe values we need to go back organic instead of Tim Hortons or McDonalds.	2/25/2016 3:14 PM
101	There should be plans made for the use of the land that was taken by the seaway ex. Commercial use and Recreation.	2/25/2016 2:22 PM
102	No further comments	2/25/2016 10:56 AM
103	All areas should be concentrated on because this is all the land we have left.	2/25/2016 9:26 AM
104	We don't need commercial development, we need to be more self sufficient and we also need land for homes because we don't have much left.	2/24/2016 3:44 PM
105	We need more places for people to live, I think residential, agriculture and cultural uses to the land are the 3 main things we have to focus on for the future. We need to start growing our own food and everything that goes with it like canning and saving our seeds and then regrowing our food. We need more community cultural events. We need more land to hunt.	2/24/2016 3:17 PM
106	Concerns re: commercial development next to residential areas; areas should be in designed areas only.	2/24/2016 11:42 AM
107	We have no land I think they put aside to much commercial use Example MIT we barely get anything from there but yet it is on our land.	2/24/2016 8:59 AM
108	Well there's something missing in all areas, we are lacking in every area and we still have to protect.	2/24/2016 8:47 AM
109	I'm a traditional person and I hold all these areas closely to my heart.	2/22/2016 11:52 AM
110	To make it fair we need to ensure all these areas are taken care of especially environmentally.	2/22/2016 11:20 AM
111	All of the above really	2/18/2016 3:37 PM
112	There needs to be more things for kids more parks and also more land for the gardens.	2/18/2016 2:29 PM
113	More knowledge for teaching the youth about agriculture and we need more places to live.	2/18/2016 11:15 AM
114	We can't just put all our eggs in one basket. We should put more roads in so we can reach the land that are landlocked.	2/18/2016 11:07 AM
115	There will be benefits for all of them.	2/18/2016 10:59 AM
116	More land to build a house	2/18/2016 10:41 AM
117	Lands wasted on 207, could be residential, why do people have to be greedy	2/18/2016 10:36 AM
118	There's minimal land left, so anything built on this land will take up more land. We need to preserve what land we have left and cutting down all the trees isn't helping.	2/18/2016 10:33 AM
119	We need to use the land smartly, as long as it isn't being used in a negative way that it will effect us badly.	2/18/2016 10:18 AM
120	We need a plan for everything.	2/18/2016 10:08 AM
121	We need more housing. There's not a lot of cultural events going on and not a lot of recreational health and trails.	2/18/2016 9:56 AM
122	Use the land wisely in surrounding areas, we dont need contaminated bio hazard waste here and mess up our land.	2/18/2016 9:39 AM
123	I would like to see the lands be used wisely cultural wise, we should have a one year program with cultural learning.	2/17/2016 11:26 AM
124	We need gardens to live off the land and be self sufficient. We need to keep the land clean and intact. We need less commercial and more cultural use of lands.	2/17/2016 11:18 AM
125	It's important to have a land use plan for residential and cultural use.	2/17/2016 11:06 AM
126	It seems like there's more people so they can live on the territory and pass the land down to the next generations. So they can grow gardens have a agricultural source for themselves and other to share.	2/17/2016 10:45 AM
127	I think it lacks in all areas, there's to much commercial development going on. We could do without commercial development.	2/17/2016 9:50 AM

22	Every single community member should have and has an opinion.	3/23/2016 10:58 AM
23	But Lands unit should definately be the lead	3/23/2016 10:05 AM
24	These options seem like they're more fir the environment office to take care of. The bottom options like the business people and Mohawk Council would probably clash with the others.	3/21/2016 3:40 PM

40	All stakeholders, surrounding areas (neighbors). We were not consulted when companies came and dumped contamination at certain areas of our lands leaving it contaminated for years to come. It's not right!	3/10/2016 9:55 AM
41	Community members wear different hats and have a wide range of opinions, we need this in order to proceed into the future. So everyone who comes to the table has a different hat with different ideas	3/10/2016 9:45 AM
42	The whole community should get involved.	3/7/2016 3:33 PM
43	As difficult as it maybe - it's important to have as many factions involved. However, all need to be aware of the needs of the community. Both socially and financially.	3/7/2016 3:10 PM
44	combination of everyone.	3/7/2016 2:57 PM
45	Not excluding traditional people in general. Aren't they community members. Why special category. Same for M.C.K.	3/7/2016 2:07 PM
46	Never know who is honest and who isn't. Who would be the most knowledgeable. The traditional people would come under environment.	3/7/2016 1:37 PM
47	From all aspects, everyone should be able to give positive feedback.	3/7/2016 1:14 PM
48	A group that wants to take care of our land.	3/7/2016 11:55 AM
49	I would say all of the above but i can see them not agreeing. There needs to be a committee formed. Depending on the people interested and have knowledge of the lands.	3/7/2016 11:38 AM
50	We are all community stake holders i think everyone has a say.	3/7/2016 9:29 AM

113	It would be best community members so all our minds can come together as one	2/24/2016 8:31 AM
114	I think the environment protection office because they already know what the town needs and how it can be protected. Business people don't really understand how it goes they are in it for the money.	2/22/2016 11:52 AM
115	Mohawk Council people meaning the portofolio chief of lands unit and environment. All these groups go hand in hand we need a working group or a committee with all these people.	2/22/2016 11:20 AM
116	Knowledgeable community members who have a vast knowledge of our issues	2/18/2016 3:37 PM
117	The community everyone should have a say in the land use plan, workshops with the youth and brainstorming sessions.	2/18/2016 2:29 PM

127	The longhouse men and woman have a different way of thinking.	2/17/2016 11:26 AM
128	There's 3 different perspectives in land knowledge it should be people who are more knowledgeable in the land instead of people who have a higher seat then anyone else. Someone who is educated in the area and someone who has been to other communities who studied and learned other ways.	2/17/2016 10:45 AM

19	As much as you won't believe it mother nature takes care of herself. She knows how to heal herself.	3/23/2016 10:58 AM
20	There are no industrial part for us to do anything really. Change should come from community members in general to have an actual industrial part of Kahnawake.	3/23/2016 10:05 AM
21	There's a lot of dumping on seaway road. We should try and do some decontaminating at those site where the illegal dumping was happening. We also need some information on what type of trees we can and can't cut down.	3/21/2016 3:40 PM
22	Still a risk of contamination in commercial and residential areas; ex: business can contaminate soil for example, Goodleaf Auto, maybe oils have already seeped into the soil there. Landfill for profit	3/21/2016 3:02 PM
23	Access to land locked properties because in my situation one individual will not sign land over no matter what is being offered	3/18/2016 1:44 PM
24	Do we own land in Vermont? If we do what's happening with it? Can we build there?	3/18/2016 1:35 PM
25	We are seriously getting screwed out the little land that we have left. Nothing will come back to us or at least not in our lifetime	3/17/2016 3:12 PM
26	Need a low where a native cannot sell land to non-native, that just ain't right.	3/17/2016 3:09 PM
27	We do not need to become a municipality. Using the white man's way is bullshit	3/17/2016 3:03 PM

1	Cultural land use for medicinal purposes, keep it preserved and well maintained. Burial sites are not as formal anymore. I believe the future is moving away from burying in the cemetaries. People can and are using other methods of burials. We have to determine what is a historical preservation site.	4/4/2016 11:45 AM

30	For Land Tenure, set a policy or what needs to be in place for a timeframe of possibly 5 years then contact that person and re-visit property expectations if not then land owner should sign land over for common lands. Our future generations need a place to build.	3/3/2016 9:26 AM

1	Land is the only tangible resource that we have. If we abuse it, we will lose it!	4/4/2016 11:45 AM
2	This statement needs to be revisited big time and needs to be condensed. Make it more simpler. Land is still relevant; however, the remaining needs to be revamped.	4/1/2016 11:01 AM
3	We don't take care of the land he have now, what will we have for our future.	3/31/2016 10:39 AM

5	I would want to read the whole report besides just the vision statement	3/29/2016 9:16 AM
6	Language and culture was also being at most important which is tied to the land.	3/23/2016 3:55 PM
7	It's important that everyone thinks ahead how they use the land, how it could be down the line.	3/23/2016 2:42 PM
8	Our youth should be consulted in every aspect of the way. It may be hard to reach them but their voice is of the utmost of importance	3/23/2016 11:35 AM
9	we are supposed to be people of the land	3/23/2016 10:05 AM
10	Also the language and culture.	3/21/2016 3:40 PM
11	Other priorities have surfaced such as social economic issues	3/21/2016 3:02 PM
12	Our children's voices are always relevant	3/17/2016 3:09 PM

## Land Use Planning Survey 2016

13	Because all this vision speaks of is expanded land base, I do not see Land use as being the main focus	3/17/2016 2:32 PM
14	Possibly if I knew what was written.	3/17/2016 10:51 AM
15	Because all vision talks about is an expanded land base	3/14/2016 3:35 PM
16	Only thing is the vision just sits there on the front of the services complex and is not being utilized, why would this be? We need to come together as a community and begin implementing it, NOW!	3/10/2016 9:45 AM
17	Definitely relevant how we interact w/each other on our land has to show the respect we have for awareness and each other.	3/7/2016 3:33 PM
18	It is still important, but there was no follow up on the vision on statement - no activities to support it.	3/7/2016 3:10 PM
19	The lack of land should be the main focus.	3/7/2016 2:07 PM
20	That's still part of it, were still connected to the land, we lost the connection but also we lost the connection and that's not the kids fault it's the parents fault. We've adapted to white society to much.	3/7/2016 1:37 PM
21	I submitted a survey at that time i think it's still relevant just a matter of units working together.	3/7/2016 9:29 AM
22	This is very important as we (Kahnawake) need a vision	3/7/2016 8:59 AM
23	I think with the new government, if there are more people getting status then we would need more land for them also.	3/2/2016 2:00 PM
24	The youth are our future, they feel that it is very important.	3/2/2016 10:32 AM
25	With lands we can't do anything	3/1/2016 10:50 AM
26	I remember now	3/1/2016 9:55 AM
27	Was never implemented to my knowledge. Process of the land is still relevant; however it went unheard and stopped and never touched upon again. It is of the utmost importance that we revisit!	3/1/2016 9:18 AM
28	I think they should develop half for business and the other half for agriculture. If we get the Sault St Seignery back we should farm and be self sufficient.	2/29/2016 3:52 PM
29	No further comments	2/29/2016 2:44 PM
30	Put it in larger clearer letters that people can read easier and in poin form; however, it's excellent to see that it is in Kanienkeha	2/29/2016 2:41 PM
31	They have projects that its main focus is the land but they need to identify what is the goal. What and how will it benefit the community.	2/29/2016 11:20 AM
32	No further comments	2/29/2016 11:20 AM
33	Self identification should be prioritized.	2/29/2016 9:46 AM
34	We are well beyond this vision, I've re-read the vision statement and only one piece of it is about Land. It's not expressive enough.	2/29/2016 9:35 AM
35	More so than ever before, our land should always be 1st on our priority list.	2/29/2016 9:24 AM
36	I've read the vision statement and I do not agree that land use was identified as being the most important. Our people are the voice of the nation, we need a holistic approach.	2/26/2016 2:50 PM
37	No further comments	2/26/2016 2:13 PM

40	It's a good statement they are on the right path but they aren't fully applying it. If we follow that statement then we can all work together, we can all be collective like working in the community garden.	2/25/2016 3:14 PM
41	No further comments	2/25/2016 10:56 AM
42	I still think it's the main focus and i think it still will be the communities strong point.	2/25/2016 9:26 AM
43	It would be great but i can't picture it in reality, the way we live now our community is divided it would take something big for everyone to come together as one.	2/24/2016 3:44 PM
44	Would be nice to be that way and it could happen but with the division within our community it will be a lot of work. In the next 20 years it could be possible if people try to work together.	2/24/2016 3:17 PM

## Land Use Planning Survey 2016

45	I remember some media coverage on but never really paid attention to what it entailed	2/24/2016 11:42 AM
46	Ideas on paper but we never go through with it. It's a fantasy. it would be nice but its just a vision. That vision isn't a clear vision of the community.	2/24/2016 8:59 AM
47	Looks good on paper but in practical people are to divided, people should start at home and have a good base then we can achieve all these things.	2/24/2016 8:47 AM
48	I did the vision statement when i was in K.S.S and its been 10 years later there has bin any movement but not enough. We have a long way to go with our land.	2/22/2016 11:52 AM
49	Yes for sure. But it doesn't seem like there's not a lot of movement they should show some sort of milestone achievements to the community.	2/22/2016 11:20 AM
50	It's a start because are youth are starting to pull together on their own.	2/18/2016 2:29 PM
51	I do agree but i don't think we are fully educated on that, we need more of our language in the school systems i think if we have more language it will help us with the area of land.	2/18/2016 11:15 AM
52	I don't think so, it's seems like it's just getting worse. The drugs and alcohol and guns in this town is getting worse.	2/18/2016 10:59 AM
53	It needs to be used really for our future generations	2/18/2016 10:41 AM
54	No further comment	2/18/2016 10:36 AM
55	I think its pathetic are you Mck or you longhouse. Are you in a ugly ship or a canoe.	2/18/2016 10:33 AM
56	There should be a lot of equals other than land use on the statement because there's a lot going on in this town.	2/18/2016 10:18 AM
57	It can be that way. We need regulations so that everyone could share the existing land fairly.	2/18/2016 10:08 AM
58	Not if we keep building were not going to have any land. It would be different if they kept sharing the same house like recycling the house.	2/18/2016 9:56 AM
59	We should take into consideration that we have a lack of land, we have to use the land wisely don't put unnecessary buildings on the land	2/18/2016 9:39 AM
60	I don't see anything coming out of it, I'm hopeful of it and would like to see it work.	2/17/2016 11:26 AM
61	I think it's good but i don't see it happening anytime soon.	2/17/2016 11:18 AM
62	I honestly don't see it being achieved ever because no one is sken:nen everyone is hard headed it would be nice to live like that but no one is perfect.	2/17/2016 11:06 AM
63	I think it could be achieved in 20 years like any other vision if theres good intentions and people behind it could work. Good intentions now will be good for the future.	2/17/2016 10:45 AM
64	I don't see what came out of it. There hasn't been nothing that came out of it so far.	2/17/2016 9:50 AM

86	If we could achieve what has been envisioned, we would all live in peace and harmony	2/15/2016 3:28 PM
87	It could be reached in 20 years. I think a lot of people try and live that way and there is a lot that live far from it. A lot of organizations working towards it but there's a lack of communication they need to put out a statement.	2/11/2016 2:30 PM
88	20 Years is approaching quickly i don't think we'll attain what is in that vision statement in 20 years. We need more time.	2/11/2016 2:01 PM
89	It's important because we don't have much land left and we have to start using it wisely so the future generations could prosper and the younger generations can have the same opportunities we had.	2/11/2016 1:31 PM

2	It's choas up there, all needs to be regulated ASAP!	4/1/2016 11:01 AM
3	I think that camping and recreation should be under the same one.	4/1/2016 10:25 AM
4	I don't want a land use plan for the road and trail development because if people have access to more lands then that just gives them more right to ruin the land.	3/31/2016 10:39 AM
5	The whole entire area, EVERYWHERE!	3/30/2016 9:35 AM
6	They should make a real camping area.	3/29/2016 11:14 AM

15	All of the above. Tioweroton is not like it use to be, the place is still beautiful but it could be preserved better.	3/23/2016 3:55 PM
16	Lack of respect is a big issue in tiowero:ton it applies to all these areas.	3/23/2016 3:42 PM
17	People over hunt and kill more than they need.	3/23/2016 2:42 PM
18	We need to preserve the areas a little more because we don't want are land in tiowero:ton to be disgusting.	3/23/2016 2:35 PM

23	More information to the cabin owner's about cabin construction, disturbing the ecosystems and disrespect to the land.	3/23/2016 10:45 AM
24	Do not frequent Tioweroton but have heard these are the issues	3/23/2016 10:05 AM
25	We shouldn't be building to many cabins there. No harm to the environment only been there twice so i'm not all that informed.	3/21/2016 3:40 PM
26	There are laws that apply in both areas; re: helmets being worn. Laws need to be applied no matter what territory you are in	3/21/2016 3:02 PM
27	Do not want to see foundations on cabins construction goes with the feeling of most that you can't tell me what I can and cannot do on my own property	3/18/2016 1:44 PM
28	Lack of maintaining land or preservation of the areas	3/18/2016 1:35 PM

44	People take too much, not only what they need, which is the way that our culture should be.	3/10/2016 9:45 AM
45	Over hunting meaning 1 kill per family.	3/7/2016 2:07 PM
46	Everything listed is what I've heard about whats going on out there.	3/7/2016 1:37 PM
47	Pretty much all of the above, it's scary how much abuse has happened in the past twenty plus years.	3/7/2016 1:14 PM
48	ATV's under age driver, noise levels and all the dust created.	3/7/2016 11:50 AM
49	Garbage on the ground and not safe.	3/7/2016 11:38 AM
50	Atv's the noise is bad, there should be some sort of curfew where all bikes need to be off the roads at a certain time. People like to litter at the falls and we are disturbing the ecosystems with our shampoo's and conditioner's washing up in the falls.	3/7/2016 9:29 AM
51	I think all are important but specifically Distrubing the ecosystems and deforestation are just a little cut more above the edge	3/7/2016 9:06 AM
52	Lack of respect to our land and others	3/7/2016 8:59 AM
53	I do not go to Tioweroton and don't have a comment	3/4/2016 9:35 AM

## Land Use Planning Survey 2016

106	It's supposed to be a place to get away from how we live now but people are going over board with all the modern technology to their land and cabins.	2/24/2016 3:17 PM
107	No comment, do not go there	2/24/2016 11:42 AM
108	Lumbering! The potential of commercial use should be banned! We should preserve it because it's our only land we have left.	2/24/2016 8:59 AM
109	Not damaging the land and not polluting it keeping it good for future generations	2/24/2016 8:47 AM
110	Theres a lot of disrespect to the land in Tiowero:ton people just go there to party and not respect the land.	2/24/2016 8:31 AM
111	I don't have a problem how people build their cabins i don't really have a say in that but don't be cutting down trees for a bigger yard. The lack of respect to the land all the noise coming from partying that's disrespecting the animals, disturbing the bears and wolves.	2/22/2016 11:52 AM
112	Based on what I hear there's no respect to the land it's suppose to be an actual environment.	2/22/2016 11:20 AM
113	we need to rise above this, our land is all we have at this time. It's only a start to respect the land, we have to respect one another as well	2/18/2016 3:37 PM

122	There is always drinking it's just a big party spot for everyone and the caretakers aren't doing a good job of their job.	2/18/2016 9:56 AM
123	People are getting to modern having wifi and generators in their cabins. People litter dropping their beer cans all over the place and riding their atv's though the waters.	2/18/2016 9:39 AM
124	We need to keep sustaining the land.	2/17/2016 11:26 AM
125	People hunt to early they should wait til the animals get bigger. There has to be common sense when hunting and more education about hunting also.	2/17/2016 11:18 AM
126	People partying out there and ripping up the area with their four wheelers and also killing more then they should.	2/17/2016 11:06 AM
127	There shouldn't be any illegal personal usage to the land, no illegal industrial usage, no personal land claims to tiowero:ton.	2/17/2016 10:45 AM

3	There should have been different sections for Kahnawake and Tioweroton or two separate surveys done	3/30/2016 9:35 AM
4	The process for giving out land should be changed. Single men should be screened in regards to their history (married out or half) They should only get land with partner from Kahnawake. There is not enough land and some couples end up gaining two lots of common land.	3/29/2016 9:50 AM
5	It is an important issue, thank you for bring it forward.	3/29/2016 9:44 AM
6	I would like to see a land use plan set now then never. If there will be a policy set in place we need to enforce them correctly and make them legit or else anyone could bring it to the court system and make their way around it. What will the consequences be if someone breaks any of the rules or the policy?	3/29/2016 9:38 AM

9	I refuse to complete survey as questions are too vague. For the most part questions other than Tioweroton do not display Kahnawake in the question that is being directed, so how do we know if we are answering specifically for Kahnawake, it could be Tioweroton too	3/29/2016 9:31 AM

21	Develop land use primarily before Tioweroton. Be highly strategic in how wer entertain our land policy. Enter into partnership with Kanesatake	3/21/2016 3:02 PM
22	Should a committe or planning committee be formed I would like to sit on this committee. Also, have concerns of "why" should I have a surveyor from out of town come survey my land, "why" can't someone from here do it?	3/18/2016 1:44 PM

27	Re: Land water, Johnson's beach; there are no recreational waters left. If there's an opportunity to develop that area and turn it into a man made water way, we should do that. Water goes low on season, and there are ways to bring the water levels back up. mechanical gate or a DAM could do this	3/17/2016 2:43 PM

35	Keeping the momentum to attain a land use plan needs to be kept thru one champion. All stakeholders should be involved.	3/10/2016 3:01 PM
36	I think we limited because of the CP. Again, I hate to use the word "zoning" but it's always there and more than likely will not go away. We need a law to support the plan, then a comprehensive communal plan would come into play to guide the land use plan.	3/10/2016 9:55 AM

53	Concerned of the waters, once our waters are contaminated we no longer exist.	3/2/2016 3:30 PM
54	We need more education on and in Tiowero:ton. We need some sort of program that consists of survival skills/culture and even history. Medicine walks, how to identify certain animals or trees, how to skin a animal. Then maybe people will respect the land a bit more.	3/2/2016 2:00 PM

87	There should me more workers because it's like a national park and we should treat it like one. Theres to many generators there and they're very loud and so are the ATV's amd Skidoo's.	2/29/2016 9:46 AM
88	what exactly is a land use plan, our waters are a HUGE distinction? Who is doing the analysis, I would like these answers!	2/29/2016 9:35 AM
89	As much as it's a pain, there are houses that are rotting away; tear them down and rebuild. Why always building from scratch. Everyone should always take their neighbor into consideration when building.	2/29/2016 9:24 AM

95	Keep addressing this is important issues. Protect our earth and land. People who live in the USA or outside should not be able to have house or property and never do anything with it! The should advise people to only leave land or property to 1 person and not a group of people that will never agree what to do with it.	2/25/2016 3:37 PM

## Land Use Planning Survey 2016

96	Many people in Kahnawa:ke fear or resent LAWS. There needs to be a push for laws and assure residence that laws are there for SAFETY for ALL.	2/25/2016 2:22 PM

98	There should be a community meeting on the vision statement in order to remind the community what are goal and where we would like to be in 20 years. Also the progress leading to the statement.	2/25/2016 9:26 AM
99	Tioweroton is a place to reconnect with mother earth but we're steering away from it. I have a problem with Non natives owning land and hiding behind onkwehonwe people owning it for a business.	2/24/2016 3:17 PM

101	Why does it have to take years to create a plan? I would like to know whats going on with higway 30 because if it's developed for commercial use only the white people will benefit off of it. It should go back to the community.	2/24/2016 8:59 AM
102	We need to figure out how we will use the land and what will we use the land for. How will we come up with a solution for someone who passes away with land in their name who will it go to? The land locked properties how will that be dealt with and also the commercial development in residential areas is a problem and it shouldn't continue.	2/22/2016 11:52 AM
103	I think the land use plan is important to have it definitely would be good.	2/22/2016 11:20 AM
104	I hesitate to use the word zoning but sometimes it has to come into play. If everyone respects their neighbors barriers, we wouldn't even need the court system. Respect is what it's all about.	2/18/2016 3:37 PM

107	There's no fish there because of the poachers catching everything up stream. One day when we need to go back to that land there will be nothing left.	2/18/2016 10:33 AM
108	Classes on prevention on plants, or getting attacked on what to do, CPR courses offered at Tiowero:ton would be great and survival skills classes.	2/18/2016 9:56 AM
109	I hope to see good things come out of this survey and good results.	2/17/2016 11:26 AM
110	We need to start thinking and doing more for the next generation. Can't keeping putting up businesses like what were doing now we don't have all the land in the world we have to choose wisely of what we do with it.	2/17/2016 11:06 AM
111	We need more updates and more education on what's going on and more ideas for the future generations. Maybe use social media as a tool to get things out there because everyone seems to be focusing on these days.	2/17/2016 10:45 AM
112	I think they dont look to years down the road it's more just fast money.	2/17/2016 9:50 AM
