Q6 What are your concerns with the existing Town Garage or the new proposed Blue Collar Park?

Answered: 170 Skipped: 99

Community Engagement: Town Garage move to Blue Collar Park

#	RESPONSES	DATE
1	Have busses pick up children elsewhere. One central location all busses go to.	1/24/2020 2:51 PM
2	Will have a huge increase of a carbon foot print to move/replace. fix&repair it . Use the 3 R's reduce ,reuse & recycle in your decision to fix the town garage,it's about our children and their children.save our Mother Earth. Nia:wen	1/24/2020 12:43 PM
3	No concerns whatsoever. Let's get it done asap!	1/24/2020 11:16 AM
4	Comment for #1 I don't know what the specific needs are. Comment for # 3 it would be good to know what the present space will be used for.	1/24/2020 11:16 AM
5	Move	1/24/2020 11:14 AM
6	It's fine where it is. Put money elsewhere. Don't need it now or ever.	1/24/2020 11:13 AM
7	Existing location -Traffic New location - safety	1/24/2020 11:12 AM
8	Good to move it to Blue Collar park	1/24/2020 11:11 AM
9	Spend money on kids	1/24/2020 11:09 AM
10	Should not be situated in a residential area.	1/24/2020 11:02 AM
11	Existing location is a bit cramped and needs expanding.	1/24/2020 10:59 AM
12	Could that space be used for commercial space for businesses? If it's not ideal for commercial, I fully support the location.	1/24/2020 10:58 AM
13	Comment to # 2 - town garage needs more land to operate.	1/24/2020 10:56 AM
14	Ok to move	1/24/2020 10:55 AM
15	About time, just do it.	1/24/2020 10:54 AM
16	Heavy vehicles and bus near pedestrians. Unsafe conditions for employees of town garage.	1/24/2020 10:51 AM
17	cost versus other needs in the community. Elders, handicapped, playgrounds, parks, housing.	1/24/2020 10:50 AM
18	It's eye sore, should be in a better location.	1/24/2020 10:48 AM
19	Will the new construction impact the environment? Where people drop their kids off @ the bus should be centrally located. It should be somewhere out of sight and where there is no environmental impacts. Comment to # 2 it's ideal for some things - for people to bring their kids to school.	1/24/2020 10:47 AM
20	People need to understand that there is simply not enough space in the current location to house everything that is needed in order to provide Public Works and Tech services to the community, the Community is growing and so must our services.	1/24/2020 10:46 AM
21	Moving the garage will open green space and hopefully expand the rink to a year round lacrosse facility.	1/24/2020 10:43 AM
22	Needs dispatch until the last bus comes back in.	1/24/2020 10:34 AM
23	Make sure Blue Collar park can accommodate all units to be put there so they're not having to share facilities again. Plan for the long term.	1/24/2020 10:33 AM
24	I don't have enough knowledge to respond. Location = existing = easy access and close. Moving = more room, and is there a need to have such a facility so close in town?	1/24/2020 10:30 AM
25	Sounds like all services will be located together, better co-operation between departments. Comment to question 3 - whatever is needed. Comment to question 4 - better to suit needs	1/24/2020 10:20 AM
26	Old position stinks!	1/24/2020 10:17 AM
27	The council does whatever they want, when they want. Take any land without asking, example - private home lots, put satellite sites anywhere.	1/24/2020 10:16 AM
28	Don't care cause MCK will do what they want to do.	1/24/2020 10:13 AM
29	Buses should be located in a safer, well lit location, such as adjacent to PK station. Better place	1/24/2020 10:12 AM

Community Engagement: Town Garage move to Blue Collar Park

to do 'switching buses for students'. Closer to main village, older students can walk from there, go to arena. Parents can pick up from there.

30	cost, how much is it? Is this a community priority?	1/24/2020 10:09 AM
31	Close to the schools	1/24/2020 10:08 AM
32	There no parking spots. Too many workers.	1/24/2020 10:06 AM
33	I need to understand more.	1/24/2020 10:05 AM
34	Current town garage is unsafe for employees.	1/24/2020 10:03 AM
35	Fill the seaway back up	1/24/2020 10:02 AM
36	Lacking space and staff to manage all departments efficiently.	1/24/2020 10:00 AM
37	Very good idea to move	1/24/2020 9:59 AM
38	More green space for families, activities, social gatherings	1/24/2020 9:57 AM
39	My concerns are How much land is being used.? Is an environmental assessment being done.? What role is the KEPO and how are they involved? Can the busses be relocated near the PK station ? Gas pumps already there. What will the area used now be used if a park is relocated? Where will the money come from and or what will be cut in order to build this park.? 25 million dollars to correct the same departments wrong doing is a question why build now.? Will contracts stay with kahnawakero:non? Will you be asking the people of the community if this land can be used by MCK? Just like community members who have to ask to build a house and similarly how KOR was made to ask community? After looking at the land you are proposing to be used my question is do you need that much? I want to see full consultation with community and Youth to be engaged before any ground breaking. If anything should be moved it should be the shit plant first. I would like to see that area turned into green space with trees and access to the water.	1/23/2020 5:22 PM
40	The town is planning to move the facilities without first asking the people if it can use these lands (If we have to ask for land then so should MCK) From what I saw of the location on the youtube video the footprint seems excessive (the building looks tiny compared to the site) The buses school buses should not be part of that site. A the bus canopy should be built next to the Peacekeepers site this would be much better for the parents that currently have to drop their children at the bus depot. The added traffic on the highway will make for an even more dangerous section of road. Please remember a large number of our children have to use that highway to access Kahnawake Survival School.	1/23/2020 3:52 PM
41	Demolish the existing. And I have none with the proposed site.	1/23/2020 1:23 PM
42	Use the roof from the old Town Garage to put it over the rink like in Akwesasne. New spot is great for us.	1/23/2020 1:02 PM
43	If the garage is moved from its current location will the site be completely decontaminated prior to proceeding with new developments.	1/22/2020 6:33 PM
44	None, so long as everything is done safely there is no reason not to move there.	1/22/2020 4:48 PM
45	I have seen students walk to the town garage to catch their bus so it's current location is convenient. But I also understand that it's not ideal to have so much heavy traffic in such an area.	1/22/2020 2:08 PM
46	The building is falling apart. They have outgrown their location. The community is evolving and has different needs. We need to keep up with those needs. I have no issues with the proposed Blue Collar Park.	1/22/2020 2:05 PM
47	what is lot 10-3???? you make a reference but I do not know off hand how this is parceled up. Not a fair question without showing the location in relation to existing buildings etc. dis there infrastructure for water, sewer and hydro? what is the overall estimated cost vs repairing what is there now? Not a lot of information you give but asking a lot. do not think you should bank on this survey being your "community consultation"	1/22/2020 1:19 PM
48	The existing Town Garage does not have space for future required needs.	1/22/2020 12:12 PM
49	None.	1/22/2020 12:06 PM

Community Engagement: Town Garage move to Blue Collar Park

50	It is just common sense to move it and have a better building to house the many more vehicles and machines that have been acquired since it was built. It would be very nice to see trees in its place with gardens and park benches for community members to enjoy. And to extend the walking path too.	1/22/2020 11:58 AM
51	Working at the Service Complex you can smell the exhaust fumes from the buses and trucks, there is also a lot of traffic in the morning with buses and people having to pass there to get to work at the Complex or go to post, bank etc.	1/22/2020 11:53 AM
52	Not a concern but think that the blue collar park on sls 10 will act as a deterrent for people throwing garbage along the seaway and other unwanted activities.	1/22/2020 11:49 AM
53	I am concerned with it being so close to the water. I would be strongly in favor if the entrance/exit was facing the highway instead of the water.	1/22/2020 11:47 AM
54	I think that the current Town Garage location would be much more suitable for a recreational park, right in the heart of the community.	1/22/2020 11:47 AM
55	That type of facility should be in an industrial location. Not in village.	1/22/2020 11:42 AM
56	Is it going to be Engineered correctly ? Is the whole project going to be overseen, and by whom? The community doesn't need another Fiasco such as the KMHC. Will all works be done correctly and will it be true to the blueprints? Will it be surveyed for plumb and square, will the anchor bolts be large enough, is the concrete going to be thick enough at the anchor points, will the steel be correct for the weight it has to support? There are a great many things to consider, is it going to be large enough for all that will be going on there. I hope we do this correctly on the first try and not have to add on in a few years . Nia:wen	1/22/2020 11:40 AM
57	none	1/22/2020 11:39 AM
58	The existing location is a traffic congestion nightmare with kids getting dropped off, accessibility to the facility for delivers, vehicles coming and going, etc. The new facility will alleviate some of the above concerns and make it safer for entry and exiting.	1/22/2020 11:38 AM
59	The existing town garage should be condemned. Is it appalling that we subject our workers to these third world conditions. As Community members, we are always complaining about that services that we receive for free. If we want better services, we need better facilities!	1/22/2020 11:33 AM
60	The location of the proposed park. It doesn't seem like a safe place for our children to be. Some kids get dropped off by their parents there to catch their bus, very early in the morning when no one is around.	1/22/2020 11:32 AM
61	Safety is the biggest issue as heavy machinery and buses are frequently using the residential roads.	1/22/2020 11:21 AM
62	safety	1/22/2020 11:13 AM
63	My concern for the current Town Garage is that it no longer suits the needs of the community, which has grown exponentially since the facility was constructed. The building is rather old and looks as if it could be unsafe for employees as well. In terms of the Blue Collar Park, my concern would still be whether or not that land should be used for commercial use, which was designated for. I do understand that Tewatohnhi'saktha said there are no plans to use that land for that purpose, but perhaps community members or local entrepreneurs had some ideas for that particular space. I do agree that the Town Garage moving out of the village proper is a good idea for safety reasons, but the MCK should make sure that the land isn't being targeted by locals for other reasons. I also wonder what will become of the current Town Garage facility?	1/22/2020 10:57 AM
64	Some aspects of current facility (ie. waste management) could stay. Reduced noise/vehicle traffic will be beneficial for safety and pollution concerns.	1/22/2020 10:54 AM
65	No concerns as of now. I will say though that this survey should have taken place with regards to moving the Post Office. If I was asked, I would have suggested to move Hydro or MCK office. That gathering area will never be the same now, it's upsetting. So many people voiced their concerns and their voices were not heard.	1/22/2020 10:23 AM
66	my concern with the current location is the high volume of traffic of buses and heavy machinery in a residential area.	1/22/2020 10:12 AM
67	The Name is odd and second, i want to know more details to what will be part of the this park, AKA Bus depot? What will happened to the old location?	1/22/2020 10:10 AM

Community Engagement: Town Garage move to Blue Collar Park

68	The existing garage is too noisy for the residents near by, and the road in that area is always congested. The new proposed location seems a good idea as long as the noise level does not bother residents in the Clay Mtn's and the entrance will be away from main highway, so it does not become congested.	1/22/2020 9:57 AM
69	no concerns, I support those who know that the current location is no longer suitable and I support those who think the possible location is the best place to relocate.	1/22/2020 9:40 AM
70	the current location is to close to the population and poses a risk (traffic) the building is no longer suitable for the operation nor the required growth. all of these units need to be located together and that is not possible at the current location.	1/22/2020 9:30 AM
71	None	1/22/2020 9:23 AM
72	None.	1/22/2020 9:11 AM
73	None	1/22/2020 9:07 AM
74	site security	1/22/2020 9:07 AM
75	No concerns, it's about time, good move	1/22/2020 9:02 AM
76	Existing town garage is in residential area which causes more traffic and safety concerns, good idea to move it to a non-residential area.	1/22/2020 8:55 AM
77	Our community is growing and the current location is not suitable anymore. There is no room for future additions and that keeps our needs as a community in a locked position - no room for growth. We need to think of the future and stop wasting money on fixing old, outdated, and not up to code buildings.	1/22/2020 8:45 AM
78	need to research the cost of moving and rebuilding which location is best financially, also need to facture in the residents who actually live in the current area, are they safe?	1/22/2020 8:22 AM
79	No concerns just wondering if the proposed location is a good idea potential for vandalism and mischief.	1/22/2020 8:04 AM
80	The current location presents many challenges from public safety to operational constraints. The area has grown and a high volume of vehicular and pedestrian traffic presents risk. The facility is old and the cost of rehabilitation may outweigh the cost of new construction.	1/22/2020 7:52 AM
81	The town garage no longer meets the needs of the growing community . The bus and heavy equipment traffic impacts traffic safety.	1/22/2020 7:36 AM
82	The existing town garage isn't safe anymore. There's rats, the air quality in the building is poor for the workers when the buses are running or when the machinery has to come into the building. The smell of exhaust lingering around isn't good for the workers lungs. Office space is limited, work space is crowded. It's time for a new building and I don't mind if they place it at the snow dump area.	1/22/2020 7:35 AM
83	Will local contractors have the opportunity to bid on the project?	1/22/2020 7:32 AM
84	My concern for the new proposed BCP would be to not have students (minor) there waiting for their bus transfers in the morning, as it probably isn't safe to cross the road to go to Black Berries. Another concern is the future of the environment. Why not clean that whole area adjacent to the seaway and turn it into a green space with woods/trees. Our community needs to have some pride in its appearance. The community is a wasteland of landfills, factories, cigarette stores and buildings.	1/21/2020 8:00 PM
85	To busy where it is now, too much traffic, with heavy trucks and buses! That is my main concern, maybe the old site can house a youth house for transitioning youths!	1/21/2020 7:59 PM
86	Current town garage is near a major community hub. Too much traffic in the area.	1/21/2020 7:11 PM
87	Traffic circulation, access in and out. I would imagine the entire area will be reconfigured with new traffic circle and traffic lights, etc.. Will a designated road surface be constructed for easy entrance and access? Overall, the plan to relocate is a good idea. The old area can be re-developed for something else.	1/21/2020 6:30 PM
88	My only concern is taking away the hills because they are fun to have when you are out with your friends or family driving the four wheeler. It's history but I understand that it's also a place	1/21/2020 6:29 PM

Community Engagement: Town Garage move to Blue Collar Park

for some people to dump garbage and get away with it, which I do not like.

89	None	1/21/2020 6:24 PM
90	I think that some money should be used to repair the town garage and remaining money can be used elsewhere, maybe putting the water line on the 207	1/21/2020 6:19 PM
91	Outdated, major repairs needed, does not meet today's demand, not suitable for the departments being housed there.	1/21/2020 6:19 PM
92	Old garage is dangerous with large vehicles coming and going , public using new bike path must be extra careful in this area !!	1/21/2020 6:18 PM
93	I do not like the name Blue Collar Park. Blue/ White collar have socio-economic connotations, much like academic/ vocational programs in school- - Western world view thinking. It perpetuates the western stereotype and I would prefer something culturally/ community based. I would suggest it be given a Kanien'keha name or named for a community member, a former worker in the town works, roads, transportation, etc.	1/21/2020 6:00 PM
94	I would like to see an area to drop of recycling, all recyclable stuff not just cardboard. Available for after hours drop off too.	1/21/2020 5:49 PM
95	None, go for it!	1/21/2020 5:38 PM
96	The proposed location is prime real estate for local businesses of the future, I say we think about the entrepreneurs of the future, we don't need to use everything in our lifetime, let's save some for them.. My opinion	1/21/2020 5:30 PM
97	It's a concern towards the new town garage location, why there...!? I think is a dangerous spot in reference to the high volume of vehicles Through out the day. there's not adequate space on the highway as it is with no turning lanes on both sides northbound or southbound directions. My opinion is...They should build the new building next the dump it's out of the way and out of sight.	1/21/2020 5:24 PM
98	Just going to be dumping them in poison into the seaway in a new location is all..	1/21/2020 5:03 PM
99	Where would the "thousands of tons of clay and seaway gravel" be put? Has there been tests done on the soil to make sure that moving potentially contaminated soil onto another place in Kahnawake?	1/21/2020 5:03 PM
100	The current location may have been fine in the past but with the development of that area, it is no longer safe and frankly it's now an eyesore. The land could be put to better use with more office space for KSCS or other organizations. The new proposed location is a good option. It's out of the way of the village and residential areas and a Blue Collar Park is a great idea, to centralize all those services into one place.	1/21/2020 4:48 PM
101	Must have jersey barriers where the seaway meets the road passed the recycling depot	1/21/2020 4:45 PM
102	Traffic from The depot to town for school busses. May disrupt pick up times. But as a bonus for us drivers more overtime	1/21/2020 4:37 PM
103	Has far outgrown its usefulness to house all the vehicles and workers to run those vehicles. Community has grown in the last 43 years and it is certainly time for an upgrade. Even the air quality at times is questionable. The proposed site is well suited for commercial use and is sitting unused. Time to move and grow.....	1/21/2020 4:34 PM
104	We need a 2nd arena for sports. A indoor pool is also needed. Some of that money can be used for people learning our language. It can fund more people for school.	1/21/2020 4:31 PM
105	There was no consultation as to the proposed location. The proposed footprints seems excessive! The current road systems are not good and will cause accidents with trucks and buses trying to turn in.	1/21/2020 9:48 AM
106	The pollution and the environment and make sure it's cleaned up.	1/21/2020 9:45 AM
107	Health reasons. Sick and tired of this across from house. Angus Brian Lahache	1/21/2020 9:41 AM
108	The existing town garage is too close to homes. Too much noise and traffic in a residential area.	1/21/2020 9:39 AM
109	I have safety concerns regarding all the school buses on our roads.	1/21/2020 9:38 AM

Community Engagement: Town Garage move to Blue Collar Park

110	I think it would be good to have a new building and move the vehicles out of the center of town. The noise and smell.	1/21/2020 9:36 AM
111	Existing building is old/small/cramped for employees working there. Traffic issues/safety issues	1/21/2020 9:34 AM
112	No concerns, good to use seaway land. By community and save village lots for other buildings/projects.	1/21/2020 9:32 AM
113	Heavy traffic in residential area. Condition of current structure due to age. Movement of heavy traffic (trucks, buses, equipment) in a residential area. Access from route 132 is ideal for industrial operations.	1/21/2020 9:28 AM
114	I am in support of moving the town garage from its current location, however I am not sure of where it should be exactly, although I understand that the proposed site has been designated as 'commercial '.	1/21/2020 9:25 AM
115	None whatsoever. We have outgrown the current facilities and need something better in line with its needs. Also, the roof from the town garage should be recycled for use over the town rink.	1/21/2020 9:22 AM
116	Dangerous site. Noise pollution. Contaminated trucks spreading contamination.	1/21/2020 9:19 AM
117	There is a lot of traffic in that area, Especially in the morning, lunch hour and 4:00 closing hours. I often see the buses and workers waiting a long time to get out of that driveway. A different location would be so much easier for everyone.	1/21/2020 9:18 AM
118	The move makes so much sense. It should be out off the 'center' of town. And our workers deserve an adequate facility.	1/21/2020 9:15 AM
119	What I understand, it needs to be in a larger area and out of the residential area.	1/21/2020 9:14 AM
120	There is a lot of traffic with the buses in the morning and people getting to work at complex. Also the fumes from the buses.	1/21/2020 9:12 AM
121	Existing garage too close to residents.	1/21/2020 9:09 AM
122	Entrance and exit to location i.e.: traffic and speed - security off hours	1/21/2020 9:08 AM
123	In and out access may become difficult for community members who drive their children to the bus station. Leaving from a highway may be a safety issue or time consuming due to traffic. Do not move the buses. Keep them in the village space. There should include plans and layout so we can better assess and comment.	1/21/2020 9:05 AM
124	Good for some, good location.	1/20/2020 11:45 AM
125	None	1/20/2020 11:43 AM
126	No concerns, but will the road be paved?	1/20/2020 11:42 AM
127	None	1/20/2020 11:41 AM
128	No concerns, seems like a good location for a much needed service.	1/20/2020 11:40 AM
129	Ask people who live nearby. Is it going to town worker for jobs? Union or nor union?	1/20/2020 11:37 AM
130	It's not a safe place for kids.	1/20/2020 11:35 AM
131	Safety issues with busses and heavy traffic/equipment in the area. Not suitable for everyone in its dilapidated state. Health of workers within the garage. Eyesore for neighborhood.	1/20/2020 11:34 AM
132	Impacts on the eco system and environment.	1/20/2020 11:32 AM
133	Heavy traffic	1/20/2020 11:30 AM
134	No comment	1/20/2020 11:29 AM
135	Spending money that doesn't have to be spent.	1/20/2020 11:28 AM
136	I don't have enough info.	1/20/2020 10:56 AM
137	Good as is, why spend money for nothing.	1/20/2020 10:54 AM
138	How should I know, I don't go inside. (For question 1) New location: taking land away from	1/20/2020 10:52 AM

Community Engagement: Town Garage move to Blue Collar Park

future home owners.

139	Garage is not a concern, it's the Blue Collar park that needs discussion.	1/20/2020 10:48 AM
140	Existing location is an eye sore.	1/20/2020 10:46 AM
141	I think it's time for the move.	1/20/2020 10:45 AM
142	I have no concerns.	1/20/2020 10:43 AM
143	Safety due to high traffic area.	1/20/2020 10:42 AM
144	Why? Change is not for the best for the people of Kahnawake.	1/20/2020 10:41 AM
145	Where else can it go?	1/16/2020 4:47 PM
146	The location could be better used for businesses and if there, it should look nice and be enclosed.	1/16/2020 4:46 PM
147	I live out by the clay, a little concerned about trucks (heavy) using residential roads. But understand that it is a need. I hope they use the current location for something useful!	1/16/2020 4:44 PM
148	Has an environmental impact review been executed? Potential waste of lands which might be used for commercial development. Potential eyesore by locating light industrial use operations at gateway to community.	1/16/2020 4:42 PM
149	Not a park, maybe a parking lot. Not suitable next to sewer town pit.	1/16/2020 4:39 PM
150	Options!	1/16/2020 4:38 PM
151	Current location is mostly for the bus depot.	1/16/2020 4:36 PM
152	Current location is entirely inappropriate. New location should have environmental concerns addressed in the design (oil spills, hay mat, etc) New building should have solar on roof top.	1/16/2020 4:34 PM
153	Eye sore	1/16/2020 4:31 PM
154	No more room. Location is horrible, traffic and eye sore. Town workers do not have the required tools and equipment they need to properly do their jobs.	1/16/2020 4:31 PM
155	More parking spaces, round the clock security	1/16/2020 4:25 PM
156	Traffic flow issues.	1/16/2020 4:21 PM
157	Parking - New location should have own road and only town vehicles use.	1/16/2020 4:20 PM
158	My question was whether the children would have to wait outside earlier because the bus is coming from further away.	1/16/2020 4:18 PM
159	It is noisy and getting too small. They would benefit from a more isolated and larger space.	1/16/2020 4:16 PM
160	The existing town garage is very close to community homes. In relation to the new proposed area, can the town trucks get to town quickly if there were to be an emergency that requires their assistance?	1/16/2020 4:13 PM
161	I'm wondering if there is alternative motives that we'll only be informed of once it's too late to do anything about it.	1/16/2020 4:10 PM
162	It shouldn't be in main area of village. Too many noise and traffic for residential areas.	1/16/2020 4:07 PM
163	Drop off and pick up for young students will be difficult. But parents should still be able to have a drop off at the current town garage.	1/16/2020 4:05 PM
164	Keep the location for repairs and maybe a storage area for other equipment. I think another location would benefit the community.	1/16/2020 4:02 PM
165	Don't have any but except it out of town.	1/16/2020 4:00 PM
166	Need to do urban/industrial planning for all facilities before you start making decisions.	1/16/2020 3:58 PM
167	Will local men and women be prioritized in the hiring of laborers?	1/16/2020 3:55 PM
168	Since my office is super close to the garage, my concerns are the loud noises all year round. Also, it is an eye sore.	1/16/2020 3:53 PM

Community Engagement: Town Garage move to Blue Collar Park

169	I don't want it to be an eyesore for water traffic. Built to be suitable for community needs. Niawen for opportunity to comment.	1/16/2020 1:59 PM
170	Should be elsewhere	1/16/2020 1:41 PM
