Mohawk Council of Kahnawà:ke unveils revamped website

For immediate release

(Kahnawake – 25, Enníska/February 2025) The Mohawk Council of Kahnawà:ke (MCK) is proud to announce the launch of its newly overhauled website, www.kahnawake.com. The community can continue to rely on the same trusted information, now presented with a fresh, modern look and up-to-date technology.

The previous version of the website had been running since 2007, and this update brings a host of new features and improvements designed to enhance the user experience. The revamped site offers easier navigation, improved accessibility, and a more intuitive interface, making it simpler for users to find the information they need.

“The redesigned website reflects our commitment to providing the community with timely and accessible information,” said Dawn Marquis-Deere, Executive Administration Officer of the MCK. “We believe these changes will make it easier for everyone to access the services and updates they rely on.”

In addition to the aesthetic upgrades, the new website includes several functional enhancements. These include a more robust search function, updated content sections, and a mobile-friendly design to ensure that users can access the site seamlessly from any device.

Everyone is encouraged to explore the new site and take advantage of its improved features.
