

Asbestos-Containing Materials (ACM Transit Pipe) in Kahnawà:ke

What you need to know

What do ACMs
look like?

Asbestos-containing materials (ACM transit pipe) look like small, hard chunks of stone or old pipe pieces in the soil. Call Public Safety Division (PSD) at 450-632-0635 if you find a piece.

Where might I
see ACMs?

ACM transit pipe might be in your soil. After the snow melts in spring, hidden ACM transit pipe can come to the surface.

What should I do if I
suspect I've found
ACMs?

If you think you found a piece of ACM transit pipe on your property, contact PSD and they will come remove it and tracking proper disposal.
