Unit*

## **Borehole sampling**

**(Kahnawake – 4 Ohiarikhó:wa/July 2025)**

The Mohawk Council of Kahnawà:ke (MCK) has authorized the St. Lawrence Seaway Management Corporation (SLSMC) and its contractors Groupe ABS Inc. and Forage PB to conduct borehole/soil sampling for investigative work on the roads under the train bridge on both sides of the Seaway, see map below.

The work will begin on **Monday, July 7<sup>th</sup> through Friday, July 11<sup>th</sup>**, between the hours of **7am to 5pm**, each day.

This investigative work is to determine the strength/integrity of the roadway for upcoming maintenance work on the train bridge, that will require the use of a heavy lift crane. Temporary road closures may be required; flagmen will be on site for safety.

The MCK reminds the public that these works are subject to change due to weather conditions, operational constraints, or work progression.
